## Score Category Breakdown

**Achivement** measures the level of knowledge and skills among students in the school, compared to state and national standards. It includes a composite of reading and mathematics performance by the "all students" group in the Wisconsin Student Assessment System (WSAS) for all tested grades in the school.

**Growth** describes how much student knowledge of reading and mathematics in the school changes from year to year. This area focuses not on attainment, but the pace of improvement in student performance, no matter where students begin.

**Target Group Outcomes** demonstrates outcomes for students with the lowest test scores in their school - the Target Group. Outcomes are displayed for achievement, growth, chronic absenteeism, and attendance or graduation rate.

**On-Track to Graduation** indicates the success of students in the school in achieving educational milestones that predict postsecondary success.
